- ⋮ e-Filing utility available
- ⋮ Three-tier architecture for easy web-upgrades
- ⋮ Conforms to NSDL requirements

eTDS no longer tedious!

"IT Department has made it mandatory (effective June 1, 2003) for corporate deductors to furnish their TDS returns in electronic format"... "Filing of Quarterly TDS returns has become mandatory from 1st April 2005"

Source: Section 203 AA of the Finance (No.2) Act, 2004

What is eTaxFile?

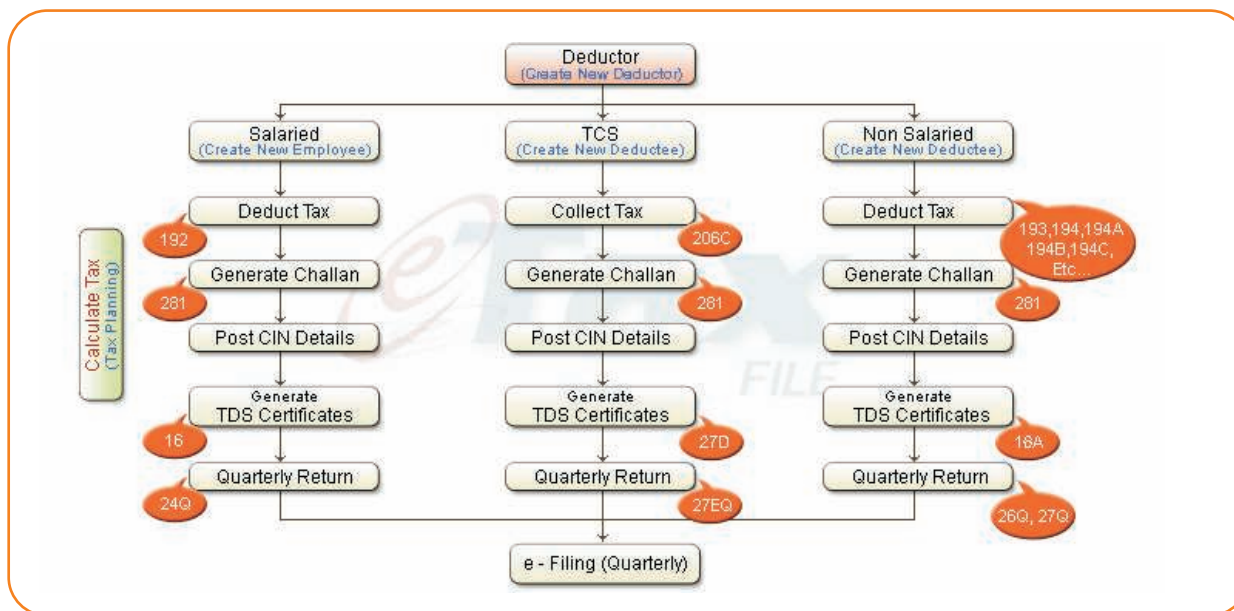

eTaxFile is a comprehensive e-TDS software solution that is designed to automate your TDS provisions for accurate computation and deduction of tax returns. eTaxFile generates Quarterly Returns, Tax Deduction Certificates, Tax Collection Certificates, Challans and MIS reports for both Salaried and Non-Salaried deductees. Thus it enables the user to comply with the statutory requirement of filing tax returns & quarterly TDS statements in electronic format to the designated Tax Information Network centres.

If deductee's details are available in a spread-sheet or in a comma separated value format, eTaxFile can directly import deductee's details, thereby saving the need for laborious data entry activity!

eTaxFile requires no prerequisites for implementation within your organisation. Upgrades of components are available as web downloads that are released within 3 weeks of the changes in law making eTaxFile an adaptive and consistent solution.

How can eTaxFile assist?

- Simplifies calculation of monthly deductions of TDS on salary, for the Salaried and the Non-salaried deductees.
- Helps in calculation of value of perquisites provided to employees and generates Form 12BA.
- Calculates Gratuity, Leave Encashment, Commutation of Pension, etc.
- Calculates rebates, relief U/s 89(1), deductions under sections (80CCC to 80U) and computes the tax deductible at source.
- After computation of the tax deductible, it automatically generates:
 - o TDS Challans for corporate and non-corporate deductees.
 - o TDS & TCS Certificates
 - o Quarterly (Form 24Q, 26Q, 27Q, 27EQ) and Annual Returns (Form 24, 26, 27, 27E)
 - o Calculation of perquisites and Form 12 BA
 - o Various MIS Reports.
- Enables electronic filing of TDS Returns
- It computes, publishes, stores and retrieves your TDS certificates & Returns as a comprehensive electronic repository for future access.
- It conforms to all statutory provisions and is easily upgraded through web downloads, to accommodate changes in Income Tax laws.

Why use eTaxFile?

- The tedious job of manually computing tax-deductible data is automated, thus eliminating the possibility of manual error in tax computation.
- Its intuitive and easy-to-use screens make eTaxFile very easy to learn and implement.
- eTaxFile's inbuilt migration tool saves time and efforts wasted on tedious data entry activity.
- Its "Tax Planner" feature enables you to advise your employees on their annual tax planning.
- All available provisions for TDS have been incorporated. Computation of TDS is automatic and requires no manual calculation.
- Prints consolidated TDS Certificates, Challans and Annual Returns for statutory and tax-audit purpose.
- Vital summary information is at your fingertips for retrieval during consulting and audit engagements.
